## 👤 Profile

Experienced in Oracle Integration Cloud (OIC), AWS, Python, SQL, Java, and cloud computing with 2.5+ years in database management. Skilled in delivering scalable AWS solutions, automating workflows, and improving efficiency, while also proficient in OIC integration, BIP reports, and P2P workflow management.

## 🎓 Education

2018/08 – 2022/07  
Satara

**Computer Science Engineering (B. Tech),**  
*Dnyanshree Institute of Engineering and Technologies, Satara*  
GPA: 8.58/10.00

## 🧠 Skills

### Technical Skills

AWS Lambda | AWS RDS | AWS S3 | AWS EC2 | ECS | Cloudwatch  
| System Manager | IAM | VPCE | Python | SQL | FBDI | OIC  
Components | Development | HTML | CSS | Postman API | DBMS  
| Java | Oracle Integration Cloud | BIP Report | REST, SOAP  
Connection.

### Soft Skills

- Critical thinking and problem solving
- Ability to Multitask Leadership Skills
- Ability to work under Pressure
- Fast Learner | Team Player
- Complex Problem Solving
- Communication Skills

## 📁 Projects

### Technologies Used For Projects :

Fusion SAAS Environment, Rest API, FBDI, SQL, PAAS (Oracle integration, Rest, Soap, ERP, HCM, Connections etc ) Various Integration Activities, APEX, CRM, HCM, SQL,

### Rate Card Integration, Oracle Integration Cloud

### Employee as a Supplier Error Integration, Oracle Integration Cloud

### Concur Integration, Oracle Integration Cloud

Streamlined travel expense reimbursements and claim processing, ensuring compliance and data integrity while reducing manual effort and enhancing employee satisfaction.

### Timesheet Integration, Oracle Integration Cloud

Developed an integration solution to fetch timesheet data from Concur and update it in APEX, enabling efficient timesheet submission for employees across various shifts and work schedules. The integration automates the transfer of hours worked, ensuring accurate record-keeping and seamless tracking of employee timesheets, while supporting flexible submission based on different work patterns.

### Employee As a Supplier Integration, Oracle Integration Cloud

- Developed and implemented an integration solution to sync employee master data between Fusion HCM and Oracle Fusion Procurement, streamlining travel expense reimbursements and ensuring accurate claim eligibility through automated validation workflows.
- Automated employee information recording and claims processing in the P2P module, optimizing operational efficiency, ensuring data integrity, and improving claim processing times in collaboration with cross-functional teams.

### Salary cost Integration, Oracle Integration Cloud

- Developed integration to retrieve employee master data from BIP reports and transfer it to Apex for storage in the master table, ensuring accurate data management.
- Utilized employee master data to maintain accuracy in the salary cost journal table, enhancing data integrity and reporting.

## 📄 Certificates

- AWS Certified Cloud Practitioner | AZ - 900 | Python 3  
Programming Specialization(W3 Schools) | Java  
Programming NPTEL|
